Agenda item 10.3 Pavilion Tapestry

In 2016 it was decided to create a large soft collage/quilted/tapestry artwork that could be hung in the main room of the pavilion, originally this was born from acoustics discussions.

It is made up of many panels which will be installed above the end windows. Each panel is a different view or facet of Kingston, and they had a theme of Kingston windows.

A large group of craftspeople from Kingston were contacted and the panels were assigned to different group members to work on.

The panels were finished a few months ago and the group who made them are keen to get them erected.

At the pavilion committee meeting it was suggested the costs to install the tapestry including materials and the removal of the end wall light would be no more than £1000. There is an amount set aside in a reserve for pavilion maintenance which could be used to cover the costs.

Council to consider the request.
